DETAILED ACTION

Response to Amendment

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Allowable Subject Matter

2. Claims 20-38 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter: This invention deals with a process of manufacturing an electrical cable comprising a process for manufacturing an electric cable, comprising the steps of: feeding a conductor at a predetermined feeding speed; extruding a thermoplastic insulating layer in a position radially external to the conductor; cooling the extruded insulating layer; forming a circumferentially closed metal shield around said extruded insulating layer; the time occurring between the end of the cooling step and the beginning of the shield forming step being inversely proportional to the feeding speed of the conductor (claim 20). This invention also deals with an electrical cable comprising: a conductor; a thermoplastic insulating layer radially external to the conductor; at least one expanded polymeric layer around said insulating layer; a circumferentially closed metal shield around said at least one expanded polymeric layer; and an impact protecting element in a position radially external to the metal shield, said impact protecting element comprising at least one non-expanded polymeric layer around said

Art Unit: 2831

metal shield and at least one expanded polymeric layer radially external to said non-expanded polymeric layer (claim 37). The above stated claim limitations, is not taught or suggested by any of the prior art of record.

Response to Arguments

4. Applicant's arguments filed July 17, 2008 have been fully considered and they are persuasive. Specifically, the applicant's argument that "Moreover, Marin also does not disclose "an impact protecting element in a position radially external to [a] metal shield, said impact protecting element comprising at least one non-expanded polymeric layer around said metal shield and at least one expanded polymeric layer radially external to said non-expanded polymeric layer," as recited in independent claim 37" is persuasive and therefore the claims have been allowed.
